MP 3AP Power Supply

Product Description

major science MP 3AP (Cat. No. MP-3AP) power supply is considered as one of the most powerful power supplies on the market. Like other major science power suppliers, it is a microprocessor-controlled power supply covering a wide range used for most electrophoresis needs. MP 3AP is also a programmable mode, and it is capable of running horizontal & vertical electrophoresis, SDS-PAGE, native PAGE applications, two-dimensional electrophoresis, and electro-blotting. Furthermore, the powerful specifications plus four pairs of terminator can be used for multi electrophoresis units simultaneously. In addition, a Timer with alarm function is equipped in the unit, and so is Pause function, major science MP 3AP power supply provides Constant Voltage or Constant Current or Constant Power used in electrophoresis. 2.6" LCD shows the running / setting condition and also provides a user friendly interface and convenience to the user. Advanced safety design concerns are outstanding features of MP 3AP power supply.

Features

- Compact size
- Advanced power capacity: 3A, 300V, 300W
- Microprocessor controller
- Advanced programmable capability
- Four pairs of outlet terminator
- LCD display
- Timer with alarm function
- Advanced safety devices
- Stackability
- Wide applications for DNA, RNA and protein electrophoresis

NEW

CE

Cat. No. :MP-3AP

Specification

- Output Voltage / Inc: 5 - 300V / 1V
- Output Current / Inc: 10 - 3000mA / 10mA
- Output Watt / Inc: 300 W / 1W
- Operating Constants: Voltage or Current or Power
- Control: Microprocessor controller
- Program Storage: 30 programmed files
- Program Multi-Step: Up to 6 steps
- Terminator Pairs: 4 pairs
- LCD Display: 2.6"
- Timer: Constant Mode: 1~9999 mins with alarm, continuous
Programable Mode: 1~999 mins with alarm, continuous
- Safety Device: No Load detect
Leakage detect
Load change detect
Over voltage detect
Over temperature protection
Shrouded plugs and sockets
Overload detect
- Crossover: Yes
- Operating Temperature: Ambient to 40 °C
- Unit Dimension: 190 x 275 x 95 mm (W x L x H)
- Construction: Frame retard ABS plates and aluminum
- Weight: 2.5kg
- Rated Voltages: 100 - 240V
- Stackability: Yes
- Compact size & light weight

MP 500V & MP 3AP

MP 3AP & MP 300V
